The Reno-Sparks Convention and Visitors Authority received the following questions in regard to RFP 2022-04. Below are the questions received (Black) and the Authority's responses (Blue).

1. We are having a hard time getting prices and availability for the black plenum CAT 6 from the manufactures that is specked in the project manual. Here are the specs from Hyperline, a large manufacturer of IP products that is manufactured in Canada Here are the specs for CAT 6 black plenum cable and some of their other products that they have to offer. They also can give you a warranty of their CAT 6 cable for the 15 years that you ask for. We would like to present their specs to you regarding whether we might be able to use this manufacture, instead of the manufactures that are specked in the project manual. If you agree that this manufacture can provide you the products, the warranty and the service that you are looking for, please let us know as soon as possible so that we can use their products in our proposal. Desert Hills is also certified with Hyperline and we look forward to your response.

Hyperline plenum CAT 6 cable with jacket color black is acceptable. Hyperline cable must be used with Hyperline jacks and patch panels where applicable. Cable must be tested and certified in accordance with Specification Section 27 08 00 -

Reno-Sparks Convention & Visitors Authority

Commissioning of Communications.

2. We are bidding this project on Tuesday, 6/21/22. Liquidated damages were mentioned, do you know how much is the \$ amount per day?

Liquidated damages are based on project value and schedule and are determined during contract negotiation.

3. Is this project tax-exempt?

BB. Tax Exemption

The Authority is a tax-exempt public entity and is not generally subject to federal excise, state, or local taxes. The Authority is specifically limited in its payment of sales tax per NRS 372.325. No additional taxes may be added or "passed through" as a result of any agreement.
